Our kiosk product range can:

✔ **Maximise your business income**

With our product we can add additional income to your over all monthly intake as well as present a more professional and flexible customer service front to your hotel or premises.

✔ **Minimise your risk and involvement**

The solution minimises the business risks associated with the loss of investment, intellectual property, hardware and installation costs

✔ **Zero installation or product cost**

There are zero installation costs on your part and Intech will front the entire installation costs and negotiate a percentage with the proceedings and maintenance costs.

"Want to attract new customers?"

"Want to keep clients in your establishment for longer?"

"Want an added revenue stream?"

If the answer to any of these questions is yes then you may well wish to consider letting Intech install a fantastic way to draw crowds with a great product. Internet Kiosks give instant access to the Internet so customers and guests can check e-mails, look on Facebook, play games and generally utilise the Internet. The machines are coin operated and installation is **FREE**.

- Installed on a profit share basis.
- No Risk.
- Technical Helpdesk with remote access.
- No gambling license required.

Just let us know where you want it, let Intech deliver, install and do the rest while you can take a profit hassle free.

Suitable for Holiday Parks, Hotels, Pubs, Clubs, Cafes, Restaurants, Soft Play Areas, Shopping Malls, you name it!

All that is required is an ADSL or broadband line into the building.

The kiosks can either use an existing line or we can agree to implement a new line dedicated to the kiosks. In which costs will be shared evenly between both parties.
